## SWITCHBACK VINEYARD PINOT GRIS 2021

Haywire was established in 2009, with the first tiny crop harvested at Switchback Organic Vineyard, starting life as a virtual brand. Today, Haywire has grown into its own as an anchor attraction in Summerland, BC, unveiling a bold new label and a relaxing new visitor lounge spring 2023. Haywire celebrates the Okanagan's exceptional terroir, embracing a "less is more" style, utilizing state-of-the-art concrete tanks and a gentle winemaking hand.

### WINEMAKING

100% Pinot Gris from Switchback Organic Vineyard was whole cluster pressed and fermented naturally then aged in concrete tanks. 11 months on lees with constant stirring delivered a complex wine with fine structure and texture. An Okanagan icon Pinot Gris that will reward careful cellaring. Pair with roast poultry, especially duck a l'orange.

### WINEMAKERS

Matt Dumayne and Kat D'Costa
